The Ancient Depths

by Nika Sandler

In light of the increasingly concerning news
about the imminent fate of the oceans, I find myself
contemplating the issue of extinction with greater frequency.
In collaboration with artificial intelligence, I dive into
ancient waters and capture the inhabitants whose existence
was interrupted and whose evidence is preserved in fossils.
The aim of this work is to illustrate the fragility of life
and to prompt reflection on the current, rapid extinction
in which humanity plays a pivotal role.
